

QIROX QRC-210

6-axis robot mechanics with classic wrist and 2,100 mm working envelope

The QIROX QRC-210 is a six-axis articulated arm robot. The robot is used in upright position and is mounted on a base or directly at a robot positioner. The QIROX QRC-210 robot has a classic wrist where welding torches and other working tools with a weight of up to 4 kg can be mounted.

- The entry model: Easy entry into the world of robot welding
- Processes: Takes over all single wire MIG/MAG welding processes
- Flexibility: Modular design for tailor-made systems, perfectly adapted to individual production requirements
- Dynamics: High dynamics due to slim product design, low weight and ergonomic shapes
- Quality: Repeatability, long service life and maintenance intervals

QIROX QRC-210

Technical Data

Series	WS
Design	Classic
Number of axes	6
Payload	4 kg
Working area	2100 mm
Mounting area	285x285
Robot weight	135 kg
Mounting	Boden
Processes	Handling MIG/MAG welding
Attachment parts	Greifer

Process

- Handling
- MIG/MAG welding
