# Ölueo

### **QINEO StarT 502 C Master**

MIG/MAG Pulsed arc welding power source up to 500 ampere with integrated wire drive for manual welding

- High-quality components with optimum price/performance ratio and excellent welding characteristics
- Faster to the target with the preset parameters of four CLOOS welding processes
- A wire drive unit which is integrated in the power source ensures a slip-free and powerful wire feed.
- Simple, quick and intuitive operation with the MasterPlus Compact operating module
- Modular design and extensive accessories for flexible application possibilities adapted to individual requirements

# ÖIUGO

## **QINEO StarT 502 C Master**

| Tec | hnic | al D | )at |
|-----|------|------|-----|

| Construction form              | Internal wire drive |
|--------------------------------|---------------------|
| Welding current                | 15 A - 500 A        |
| Open circuit voltage           | 78,7 V              |
| Connection cable               | 4 x 6 mm²           |
| Mains protection/400V          | 32 A                |
| Type of protection             | IP 23               |
| Insulation class               | F                   |
| Type of cooling                | F                   |
| Dimensions L/W/H (without wire | 805 x 348 x 643 mm  |
| Weight (without wire drive)    | 75 kg               |
|                                |                     |

#### Application

Manual

### Process

- MIG/MAG Single Wire pulse
- MIG/MAG Single Wire
- MIG Bracing
